

M3 Corpus (PPP)

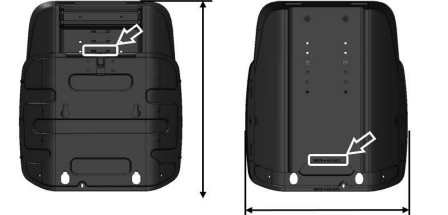

The M3 Corpus is prepared to be equipped with bio-mechanical powered backrest, elevating and articulating leg rests, seat elevation & anterior / posterior tilt power functions. The M3 can be accessorised with the direct mount ROHO Agility Backs and Bodilink postural management aids

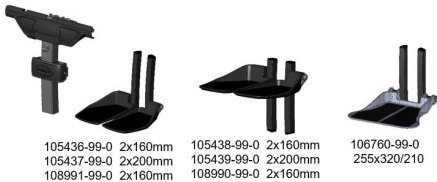

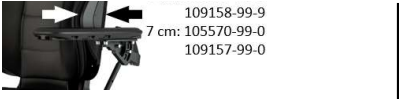

Figure 1 illustrates the anthropometric dimensions of a seated person, showing two views: a side profile and a back view. The dimensions are numbered 1 through 10.

- Side Profile View (Left):**
 - 1: Total seated height (from floor to top of head).
 - 2: Seated leg length (from floor to top of thigh).
 - 3: Thigh thickness (vertical distance between the top of the thigh and the seat).
 - 4: Pelvis width (horizontal distance between the widest points of the pelvis).
 - 5: Pelvis depth (horizontal distance from the vertical midline to the side of the pelvis).
 - 6: Pelvis height (vertical distance from the floor to the top of the pelvis).
 - 7: Head height (vertical distance from the top of the head to the top of the pelvis).
- Back View (Right):**
 - 8: Shoulder width (horizontal distance between the widest points of the shoulders).
 - 9: Back height (vertical distance from the top of the back to the top of the thighs).
 - 10: Total seated width (horizontal distance between the widest points of the thighs).

User consent for the installation of ConnectMe

Please select one of the below options:

- ☐ I consent to the installation of the ConnectMe hardware at the time of manufacture. I understand this to mean that the ConnectMe hardware will be installed and ready to activate at the time of my receipt of the wheelchair and, once activated, will include the ability to monitor how my wheelchair is functioning while active, including the use of location data. I may withdraw my consent at any time by contacting my provider or Permobil directly.
- ☐ I give my consent to Permobil to contact me regarding the activation of my wheelchair for the purpose of providing support with the activation process.
