EXCEL GALAXY II

How To Adjust the Clock Time, Temperature and Speed Options

1) Turn off the key
2) Press and hold both head lights and half speed buttons
3) Turn on the key switch
4) When AM/PM flash, release both buttons
5) To change setting of each function use the indicator light switches
6) Press the Hazzard lights switch to confirm each function as below;
    Clock – AM or PM
    Clock – Hour
    Clock – Minute
    Temp – Fahrenheit or Celsius
    Speed – Kilometers or Miles

Please Note: If nothing is pressed after 10 seconds it will resume back to the normal display screen.
